

## Susan B. Anderson Scholarship Application

Susan B. Anderson was a shining example of someone who lived a life for others. She was thought of by many as the most giving and thoughtful person they knew. Susan dedicated her life to helping others through teaching. Additionally, she volunteered just about any time she could. In August 2014, at only age 50, Susan was diagnosed with ALS. She passed away just a year and a half later, but kept her beautiful smile and selflessness throughout the traumatic journey. This scholarship is for those who have led an unselfish life, by putting others before themselves, and have been affected by ALS.

### Requirements:

- Must have an ALS connection
- Must be a recent high school graduate attending an accredited 2 or 4-year university
